## Compounded Gear Oil

## Descriptions

- PTT DRIVERA W-460 is formulated with high quality, high viscosity solvent-refined mineral oil compounded with synthetic fatty oil. The synthetic fatty oil, which is lubricity additive, is added into the formulation to ensure sufficient lubrication. PTT DRIVERA W-460 has high film strength and it is frequently used for application in which lubricity or extra load carrying ability is needed.

## Special Properties

- Good oxidative stability which extend oil life
- Efficient rust and corrosion protection
- Excellent lubricity for wear protection and moderate load carrying capability.
- Good emulsibility to prevent free-water in the system

Applications

- Suitable for use in steam cylinder and wet applications such as cylinders of gas compressors in wet gas service.
- Industrial worm gear drives and worm gear unit.
- For high load carrying worm gear drives, PTT DRIVERA SYNTHETIC W is recommended

Reference Standards

- AGMA 9005-E02 Type CP

|  |  | Typical Values |
| :--- | :---: | :---: |
| - Density @ $15^{\circ} \mathrm{C}, \mathrm{kg} / \mathrm{dm}^{3}$ | 460 |  |
| - Viscosity @ $40^{\circ} \mathrm{C}, \mathrm{cSt}$ | 0.901 |  |
| - Viscosity @ $100^{\circ} \mathrm{C}, \mathrm{cSt}$ | 458.8 |  |
| - Viscosity Index | 32. |  |
| - Flash Point, ${ }^{\circ} \mathrm{C}$ | 101 |  |
| - Foaming Characteristics | 245 |  |
| Sequence I, (ml/ml) | $5 / 0$ |  |
| Sequence II, (ml/ml) | $5 / 0$ |  |
| Sequence III, (ml/ml) | nil/0 |  |
| - Rust prevention (Sea water) | Pass |  |
| - Copper Corrosion | 1 b |  |
